

Universal Health Services

- One of the nation's largest healthcare management companies
- 24 acute care facilities in 8 states
- 66,000 employees

Overview

- UHS will pursue Medicare/Medicaid incentives for 2012 through 2017
- UHS is implementing Cerner Millennium as the "Certified EHR" for 24 UHS acute care facilities
 - Cerner provides "Functional Reports" to enable reporting of Meaningful Use objectives and measures
- Those acute care facilities will attest to
 - 14 "Core" Meaningful Use objectives and measures
 - 5 "Menu Set" objectives and measures
 - ... but will track compliance with *all* Menu Set objectives

Approach

- UHS has formed a corporate governance structure to facilitate the attestation process
- Engaged with a consulting firm to investigate the Cerner design and ensure that UHS is well-positioned for attestation
- UHS is not currently planning to attest for Eligible Providers / Physicians (EPs)
