World-Class Health Care, Here at Home

Patients Come First

WHO WE ARE

Doctors Hospital at Renaissance (DHR) is a **506-bed general acute care** hospital located in South Texas. Our hospital was founded to serve over 1.2 Million residents and resolve limited healthcare access in a region that lacked any public or county hospitals. Today, we are working to forge a new integrated health care delivery model that incorporates patient navigation, electronic medical records, population-based care, and superior quality and efficiency to meet every patient's health needs.

DHR is the largest physician-owned facility in the United States and offers some of the most comprehensive medical care on the U.S. Southern Border. We are located in a community that Forbes Magazine recently listed as one of the poorest areas in the United States. **Despite these challenges, DHR has excelled in the delivery of world class health care.**

A FEW HIGHLIGHTS

- 506-Bed General Acute Care Community Hospital
- Over 50 Specialties and Sub-Specialties
- Care Provider to Over 180,000 Patients Annually
- Operate One of the Largest Emergency Rooms in Hidalgo County with 24 ER Beds and 24/7 Access to On-Site Physicians and On-Call Specialists (Sees an Average of 2,200 ER Patients Per Month)
- Home to the Only Exclusive Women's Hospital in South Texas and a Level III-C B Neonatal Intensive Care Unit That is Ranked in the Top 5%, Nationally and Internationally, By the Vermont-Oxford Network for Exemplary Outcomes
- Offer 88 Inpatient Beds for Mental Healthcare at the Behavioral Center at Renaissance
- Home to the Highest Nurse-to-Patient Ratio in South Texas

BECKER'S HOSPITAL REVIEW MAGAZINE

"Its rapid growth and ability to meet quality and satisfaction standards in an area with significant economic and health challenges can provide a roadmap for other similarly challenged hospitals."
