

How the Politicians
Made a Mess of Health Reform

POLITICAL MALPRACTICE

Stanley F. Hupfeld

Have you ever wanted to throw something at your television set? I have.

The *Patient Protection and Affordable Care Act*—or “Obamacare” as its opponents derisively refer to it—is either the greatest piece of social legislation in the history of the United States or it is an abomination inflicted on the American public that will ultimately destroy our health system. Insider Stanley Hupfeld dissects that health system and exposes the fallacies and prejudices of both political parties. Hupfeld explains that, if we are willing to make hard choices, we can indeed cover the uninsured, control costs, and not bankrupt the country.

“With over thirty years experience as one of the country’s leading healthcare executives and as a syndicated columnist, Stan Hupfeld has a unique perspective on healthcare reform.”

David L. Bernd, CEO
Sentara Health Care

Political Malpractice peels away the political rhetoric that clouds the debate surrounding health care reform.

Mary Steff, Ph.D., Professor & Chair
Department of Health Care Administration, Trinity University

Stan Hupfeld has provided a wonderfully written book that examines the shortfalls of Health Care Reform and the much needed steps to improve it. ... I strongly encourage you to read this book, particularly members of Congress!

Hayes Waldrop, President
Institute of Healthcare Executives, Franklin, TN

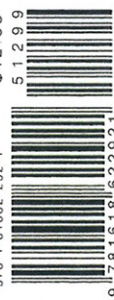

Stanley Hupfeld has been a CEO of American hospitals for almost forty years. He has won numerous awards for excellence in service to the health care field, including the American Hospital Association’s Award of Honor. In recognition of his community activities, the nation’s first hospital-sponsored charter school was named the Stanley Hupfeld Academy in Oklahoma City. He

has an extensive speaking background and is widely published. He married “the girl next door” and they have three married children and five grandchildren.
